TO THE GREAT AND MIGHTY PUBLIC EVERYWHERE:

If The Salvation Army Doughnut, originated by the faithful women who have consecrated their lives to the service of others--rolled out by hands that work for no reward but the consciousness of having met a human need, and dipped as deep into pure and unselfish devotion as into the sizzling grease which makes each doughnut crisp and savory--has brought any little cheer and comfort to the soldier and sailor boys of the great and free nation they have with their blood and brave hearts saved from destruction, then I want to say that we "shall in nowise lose our reward"; for has not God given to us the blessing promised to those who give the "cup of cold water" in His name? And if doughnut, made at the Front "as Mother would have made it," can add anything to lighten the hearts of those who hear it, or induce more smiles, and impart at the same time the solemn message of what it means to serve our fellowman, then The Salvation Army is profoundly and everlastingly grateful.
